## Be part of eduMETA THE i-SCHOOL, an Intelligent School for your Child

eduMETA is a team of MBA, PhD., & IIT graduates, who wants to bring the positive change in education, with the aim of more better and affordable education everywhere with easy accessibility for all. For more than a decade we are central India's best and biggest brand in training children for higher education. We are also among the schools that started technology enabled learning in small towns of country 12 years back. Started by opening our first school in 2004 and, since that time, we have again founded few schools across Rajasthan & Madhya Pradesh. In partnership with our educators, our technology and academic design teams have created a platform to personalize learning and innovated school learning for small children. eduMETA currently runs a network of morning pre-schools, that we call intelligent-schools & evening programs for pre-kindergarten through 7th grade students. Our good research & content team of PhD., MBA & IITians continuously monitor and upgrade the content as per the current need of children.

**OUR  
VISION**

**OUR  
MISSION**

**OUR  
VALUES**

Our vision is to become Most Innovative, Transparent, Supportive & Easy To Start Play School which can help educators and parents to give better and affordable education to budding children.

### Mission:

**OUR MISSION IS TO ENABLE ALL CHILDREN TO REACH THEIR POTENTIAL WITH HAPPINESS.**

Let the children explore their own way. When they do what they like, they do that, by doing they love. Initial age the role of educator is just a care taker, who takes care of children and takes care of their feelings of happiness.

### Our Values:

Students thrive when they understand how and why they learn. By voluntarily setting high standards for social contribution, responsibility and accountability to a greater good.

# Introduction

Dear Readers We heartily welcome you to experience the joy, the wonder, the enthusiasm and the confidence that our eduMIANS go through. We present to you, an insight into their school time, as they immerse themselves, into the numerous learning activities, that are specifically designed to be joyable and fruitful for them. Also highlighting the events and achievement's of eduMETA.

# INTRODUCTION

# Summer Camp

eduMETA THE i- SCHOOL, India's most trusted brand, has rolled out its annual 'Summer Camp' program to engage children in fun-filled activities during the summer break. Every year THE i-SCHOOL launches a summer camp program to assist children in acquiring new habits and forming a daily routine during the holidays. The program will help students make new friends, explore new hobbies and settle well for the new academic year. The different activities and unique themes were conducted for the children to build reading habits and be more social, adaptive, curious, and open towards learning new things. eduMETA Summer Camp this year offered customised activities for different age groups, such as 2 to 4 years, 5 to 8 years and 9 to 12 years. The group (2 to 4 years) includes modules to eliminate screen time and making relationships with positive role models through story telling and role play. Dancing on their favourite songs contributed in developing gross motor skills. This group (5 to 8 years) focused on inculcating the love for reading among young learners through reading and interactive discussions of stories to foster their communication skills. Handmade scientific games were designed to ignite scientific interest among children through various exciting experiments packed with amazing crafts to keep them engrossed such as Warli Art, Flower Pot Making etc. The group of elder ones (9 to 12 years) was focused completely on Receptive and expressive vocabulary through activities. Raising the level of art with lippan art and pot painting for the teens to create an enthusiasm. Sports sessions like swimming, skating, chess and badminton were conducted with the guidance of professional trainers

# SUMMER CAMP

# First day of school

It's been an extra special meeting this time, as our little eduMIANS got to finally meet their friends and the teachers were equally excited to welcome the children back to school. We were elated to welcome our students back at our campuses in different cities. First day of the school was overwhelming for the kids who may have never entered a classroom before and to make this transition to the school memorable many fun-filled activities were conducted such as memory games, knowing the names. eduMIANS were welcomed with hand made crowns to make them feel special. The day was accomplished by leaving hand impressions of our tiny ones.

# FIRST DAY OF SCHOOL

# Shadow puppet show

Playing around with shadows is great for developing gross motor skills and control over the body. To move and hold your shadow into new shapes also requires a decent amount of focus and self control from young kids. This invitation to see what your shadow can do also opens the door to a whole world of imaginative and physical play using a shadow- the super toy that is always there, as long as the sun is shining. eduMETA conducted a " Shadow Puppet Show " for three dimensional learning with the help of a Jungle story . This act resulted into a positive moral development in eduMIANS along with learning the characters of jungle with the help of shadows . Training to conduct a shadow puppet show with backdrop decoration of Shadow theme was given by Head Office to the Branches .

# SHADOW PUPPET SHOW

# Vegetable Day

Hurrah! It's a Veggie day. Green, Yellow, Orange, Red, all vegetables from the soil bed. The tiny tots of eduMETA had a wonderful vegetable day celebration on 16th June 2023. The children were clad with green and different vegetable costumes. Each child brought a vegetable of his/her choice. The vegetable day began with a wonderful assembly and a prayer song to invoke and thank god. The children then recited rhymes on vegetables. They spoke well about the importance of vegetables. And then teachers later explained them about the uses and importance of Vegetables and where they grow. The children also participated in the competition of identifying the different types of vegetables. It was a fruitful day for the children indeed to identify the colour and the name of the vegetables and how they help to improve their immune system and growth. Thus all of us enjoyed the day to the fullest.

# VEGETABLE DAY

# Mother's day

“God could not be everywhere and therefore he made mothers.”- Rudyard Kipling  
MIANS celebrated the special occasion of Mother's Day in great enthusiasm. A mother's selfless love and care are pivotal in nurturing a child, and there cannot be a more universal celebration than the one that celebrates the accomplishments and efforts of every mother.

Keeping this bond in mind, they celebrated Mother's Day . They showcased their love, respect and appreciation for their mothers in different ways. A song is an endearing way to express emotion and the tiny tots of Pre school sang the song ' I love you, Mumma!' and crafted cards with their little hands. Teacher's also made handmade crowns as an appreciation , which they presented to the mothers. The teacher made an earnest effort to instil the importance of Mother in a child's life through effective value based stories, dramatization and rhymes. Many Branches conducted Fireless cooking and hairstyling competition for mothers .

All in all, it was an enjoyable and memorable day for each and every child. It is important to recognise and appreciate our mothers for all that they do for us. We often take our mothers for granted and forget their sacrifices. It is important to not let this love and sacrifice go unsung.

# MOTHER'S DAY

# Yoga day

“True yoga is not about the shape of your body, but the shape of your life. Yoga is not to be performed; yoga is to be lived.” The art of practicing YOGA helps in controlling an individual's mind, body and soul. Yoga helps in all round fitness. On account of International Yoga Day celebrated on the 21st of June every year, the eduMIANS participated in the Yoga week celebration. The kids were trained to do Yoga by trainers and teachers. The session began with a few free hand exercises like head rotation, wrist and hand rotation, side forward and backward bending etc. The exercises were then followed by Pranayam (meditation) where the young children patiently sat in the correct posture with their eyes closed, chanting OM. The teachers then encouraged the students to actively perform the various Yoga asanas like Taar-aasan, Padmaasan, Vajraasan, Parvatasan, Shashankasan and the Butterfly aasan etc. The happy and content faces of the children clearly showed that they were full of zeal and enjoyed the session thoroughly. They looked forward to a similar fun-filled session in the days coming ahead.

# Daddy's Little Models Contest

## Father's Day

A father's guiding hand, his gentle nudge, his strong exterior with a tender interior, his loving gaze and wise words, his playfulness and relentless support make him our hero for life. This Father's Day, the little eduMIANS made car hangings, photo frames, pen stands, wallets and mobile holders with abundant love and affection for the hero of their lives.

eduMETA THE i SCHOOL organized an Online Contest "Daddy's Little Models" wherein fathers from pan India Branches forwarded the photographs with their kids and enrolled themselves in two of the most interesting categories - "Twining with their Kids" and "Portraying a Social Message". Winners and runners up were announced along with the lucky draw winners and the prizes were distributed.

Mesmerizing pictures of "Father and kid Duo" made this father's day a special and a memorable one for all of us.

CEO

I encourage you to read through the important information and achievements by eduMETA.

We are living in a rapidly changing society. This requires an ever evolving education to meet the challenges. Parents and Teachers have a major role in facilitating this change and helping our children in developing the 21st century skills.

We, at eduMETA, have designed an education system which gives our eduMIANS the scope for thinking and nourishing their creativity. Let us work together and help our children develop to their fullest potential and prepare each one to integrate with the society.

This newsletter depicts the hard work of our Team and visualizes the fundamental growth of eduMIANS.
