Be part of eduMETA THE i-SCHOOL, an Intelligent School for your Child

eduMETA is a team of MBA, PhD., & IIT graduates, who wants to bring the positive change in education, with the aim of more better and affordable education everywhere with easy accessibility for all. For more than a decade we are central India's best and biggest brand in training children for higher education. We are also among the schools that started technology enabled learning in small towns of country 12 years back. Started by opening our first school in 2004 and, since that time, we have again founded few schools across Rajasthan & Madhya Pradesh. In partnership with our educators, our technology and academic design teams have created a platform to personalize learning and innovated school learning for small children. eduMETA currently runs a network of morning pre-schools, that we call intelligent-schools & evening programs for pre-kindergarten through 7th grade students. Our good research & content team of PhD., MBA & IITians continuously monitor and upgrade the content as per the current need of children.

OUR VISION

OUR MISSION

OUR VALUES

Our vision is to become Most Innovative, Transparent, Supportive & Easy To Start Play School which can help educators and parents to give better and affordable education to budding children.

Mission

OUR MISSION IS TO ENABLE ALL CHILDREN TO REACH THEIR POTENTIAL WITH HAPPINESS.

Let the children explore their own way. When they do what they like, they do that, by doing they love. Initial age the role of educator is just a care taker, who takes care of children and takes care of their feelings of happiness.

Our Values

Students thrive when they understand how and why they learn. By voluntarily setting high standards for social contribution, responsibility and accountability to a greater good.

INTRODUCTION

Dear Readers,

Welcome to our latest newsletter! We are thrilled to have this opportunity to connect with you and share exciting updates about our organization. In this newsletter, we will be highlighting some of the recent accomplishments and milestones we have achieved. We couldn't have done it without the support and encouragement from individuals like you. Moreover, we believe it is crucial to keep our readers informed and updated on events and projects. Within this newsletter, we aspire to provide you with a glimpse into the dynamic world of our preschool, sharing insights, updates, and stories that contribute to the growth and development of the little stars in our care. We believe in fostering a sense of community amongst our preschool family.

MULTI “ i ” Curriculum designed to empower the children with dynamic intelligence

Achievements & Milestones

Expanding Horizons Establishing Presence in 700 Locations PAN India

Our Journey : From humble beginnings, eduMETA THE i-SCHOOL has grown exponentially in a relatively short period of time and has now reached a significant milestone - 700 locations pan India! With a strong vision to provide quality education to every student across the country, we have worked tirelessly to establish our presence in various cities, towns, and even remote areas.

Our Strong Commitment : Our dedicated team has diligently set up learning centers in every nook and corner of India, ensuring easy access to education for students from diverse backgrounds. Through our vast network of locations, we are striving to bridge the educational gaps prevalent in our society and offer assistance to those who may lack resources or opportunities.

Each eduMETA location is equipped with state-of-the-art facilities, a passionate team of educators, and a comprehensive curriculum designed to cater to the unique needs of our students. Our centers serve as hubs of inspiration, fostering an

environment that encourages learning, innovation, and personal growth.

Our Aim : Reaching 700 locations pan India is a testament to our commitment to democratizing education. We firmly believe that every child deserves a chance to excel academically and realize their full potential. By expanding our reach, we aim to bring the joy of learning closer to communities nationwide, empowering students to break barriers and achieve their dreams.

A Heartfelt Thank You : We extend our gratitude to all our students, parents, and well-wishers for their unwavering support throughout our journey. Their trust in our institution and our vision has been the driving force behind our expansion.

Endless possibilities await : As we celebrate this milestone, we would like to reiterate our dedication to delivering quality education that fosters critical thinking, creativity, and holistic development. We envision a future where the power of education transcends geographical boundaries, and every child in India has access to the resources they need to succeed.

Stay tuned as we continue to expand our presence, bringing eduMETA's transformative education to even more locations across the nation. Together, let us build a brighter, more inclusive future for the generations to come.

Celebrating 1000 Flawless Transactions on Shopping Portal

Setting an impressive milestone, we were proud to announce the successful completion of 1000 transactions on its bespoke shopping portal on 12th December 2023. With a commitment to delivering an exceptional digital experience, eduMETATHE i-SCHOOL has seamlessly facilitated these transactions without encountering any challenges or disruptions. This remarkable achievement signifies the school's dedication to providing students, parents, and staff with a secure, convenient, and reliable platform for all their educational needs.

Ensuring a Smooth Shopping Experience: From textbooks and electronic devices to merchandise and school supplies, eduMETA shopping portal offers a wide range of products to cater to the diverse

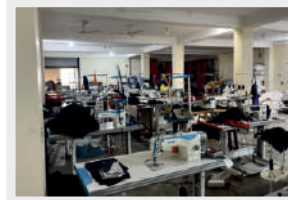

needs of its community. Over the course of 1000 transactions, we demonstrated a dedication to maintaining a seamless shopping experience through meticulous design, rigorous testing, and continuous improvements.

Continuous Improvement and Innovation: The completion of 1000 transactions signifies only the beginning of the eduMETA's journey. With an unwavering commitment to excellence, the institution endeavours to continuously improve and innovate its shopping portal. User feedback and suggestions serve as valuable insights in shaping the future enhancements, ensuring that the portal remains at the forefront of technological advancements while meeting the evolving needs of its users.

Surpassing the milestone of 1000 flawless transactions, our shopping portal stands as a testament to its steadfast dedication to providing an exceptional digital experience.

AAYAM PRODUCTION HOUSE

Shaping Impeccable School Essentials with Precision and Style!

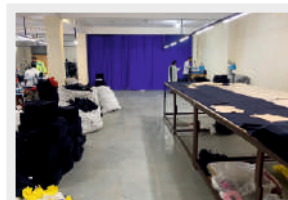

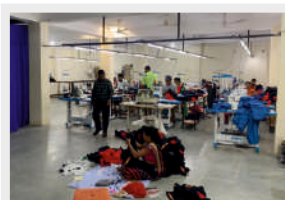

We are also thrilled to share some exciting news with everyone! We are proud to announce the formation of our very own Production House for uniforms and other school materials. Introducing "**Aayam Production House**" - a creative hub where innovation meets quality.

Our vision behind establishing Aayam Production House is to not only ensure the highest standard of uniforms for our students, but also to provide a platform for creativity and collaboration within our i School community.

Our team at Aayam Production House consists of experienced professionals. Together, we will work towards producing exceptional quality uniforms, maintaining a balance between style and comfort while adhering to the highest industry standards.

We are excited to embark on this new chapter together and can't wait to see the incredible creations that will come out of Aayam Production House. Get ready to witness innovation, creativity, and excellence in every piece that bears the Aayam Production House label.

Thank you for your continuous support, and stay tuned for more updates on our exciting journey ahead with "**Aayam Production House**"!

WINDOW TO EDUMIANS WORLD OF ACTIVITIES

GANDHI JAYANTI

The future depends on what we do in the present

The highlight of the day was the enactment of the life of Gandhi, where students stepped into the character of Gandhi and portrayed important events from his life.

Charkha : One of the most engaging workshops was centered around the charkha, a spinning wheel that Gandhi famously used to promote self-reliance and independence. Tiny ones had the opportunity to learn how to spin thread using a charkha, immersing themselves in the traditional practice. The activity not only helped them appreciate the craftsmanship involved but also understand the relevance of self-sustainability in today's world.

Celebrating a National festival and imparting the knowledge about our national leaders is a part of the curriculum of eduMETA . We celebrated '**Gandhi Jayanthi**' honouring the birth anniversary of our great leader and Father of our nation 'Mohandas Karamchand Gandhi' provoking the thoughts of our little children with the pictures of three wise monkeys.

Learnings : Our tiny tots were thrilled to see the pictures of the little monkeys embodying the principal of 'See no evil, hear no evil and speak no evil'. Teachers helped children to understand this message through the three wise monkeys with an art and craft activity.

Special Assembly: We began the day with a special assembly that included speeches, skits, and poems dedicated to Mahatma Gandhi. Our eduMIANS have put in great effort and enthusiasm to ensure a memorable start to the day.

DUSSEHRA PUPPET SHOW

Little eduMIANS instilled with the values of truth, righteousness, and empathy.

Dussehra, also known as Vijayadashami, is an auspicious Indian festival celebrated with great fervour and joy. It holds tremendous cultural importance, as it marks the triumph of good over evil and the victory of Lord Rama over the demon king Ravana. To honour this timeless tale and keep our cultural heritage alive, puppetry has played a significant role for generations.

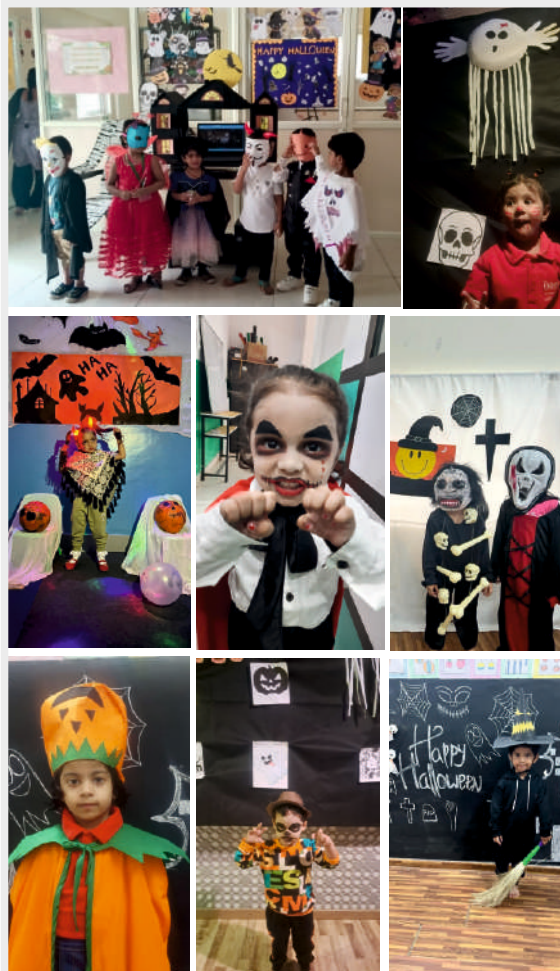

Hand Crafted Puppets: There was skilful manipulation of puppets at eduMETA THE i-SCHOOL where talented teachers brought mythological stories to life, engaging viewers with their visual splendour and lively narration. Strings attached to beautifully crafted puppets, made from wood, cloth, or clay, effortlessly guide their movements, enhancing the overall theatrical experience.

Valuable Lessons and Morals : The stories presented during puppet shows often revolve around the epic Ramayana and the valorous journey of Lord Rama, his noble wife Sita, and their loyal devotee, Hanuman. These performances serve not only to entertain but also to educate audiences about the virtues of righteousness, courage, and devotion.

HALLOWEEN CELEBRATION

**Trick or treat, bags of sweets,
ghosts are walking down the street.**

October month ended up with a Halloween Spirit during Halloween Celebration on 31st October 2023.

It was a spooktacular sight to see all the little ghouls and goblins parading through the school, showcasing their creative and imaginative costumes. It was evident that a lot of thought and effort went into creating these fantastic outfits. Well done, parents and teachers!

At School the children were shown pumpkins and how they are carved for Halloween. We also made Halloween candies. Evidently there was much excitement all around.

The excitement and laughter throughout the afternoon were simply infectious. We thank our dedicated team of teachers for organizing such a delightful event for our little ones.

**This year, we have
something truly magical
in store for our little ones-
a captivating magic show!**

“ November comes
And November goes ,
With the last red berries,
And the first sight snows.

With night coming early ,
And Dawn coming late,
And ice in the bucket,
And frost by the Gate.

The fire burns
And the Kettles sing,
And Earth sinks to rest,
Until next spring.”

With festival spirits in the
air and cold breeze in the
weather, our eduMIANS
enjoyed all November
month festivals and
celebrations with love for
our rich culture and
regards for our great
heritage.

Decorating the Homes LIPPAN ART WORKSHOP

The highlight of the workshop was the involvement of the mothers. It was heartening to see them take an active interest in learning this traditional art form alongside their children. The shared experience at eduMETA THE i-SCHOOL allowed for bonding and quality time spent together, which is essential for the overall development of the child.

A Virtual Lippan Art workshop was provided by head office as a training. The same was taken by Branches at their end. During the workshop, our eduMIANS had a chance to connect with their Indian cultural roots and learn about the significance of Diwali. They were encouraged to explore their creativity through clay moulding and mirror placement, creating their own unique Lippan art pieces. The enthusiasm and excitement displayed by our little artists were truly heartwarming.

Lippan art is a traditional form of clay and mirror work native to the region of Kutch in Gujarat, India. It is characterized by intricate designs created using white clay and embellished with mirrors. The art form is not only visually appealing but also has spiritual significance during the festival of Diwali, as it is believed to bring good luck and ward off evil spirits.

JOY OF GIVING

We rise by lifting others

At eduMETATHE i-SCHOOL, our mission goes beyond providing quality education to our students. We believe in instilling values of empathy, compassion, and the joy of giving. Recently, our dedicated team visited a local orphanage to spread smiles and bring a ray of hope into the lives of these wonderful children. Through the distribution of books, clothing, toys, and educational materials, we aimed to make a small yet significant difference in their lives. This blog post will take you on a heartwarming journey and shed light on our unforgettable day which brought a Joy of giving.

Smiling Faces : Welcoming the edumeta team with open arms. Upon our arrival at the orphanage, the children's faces lit up with excitement and curiosity. We were greeted with warm smiles and tight hugs, instantly making us feel at home. This encounter reminded us of the immense joy that simple acts of kindness can bring.

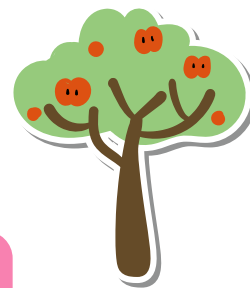

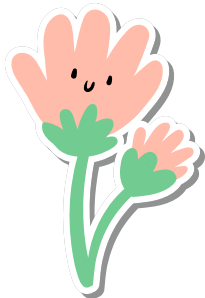

A Small Effort to light up minds : Distributing books to nurture young minds Education is the key to unlocking one's potential, and we believe that every child deserves access to it. With this in mind, we distributed books of different genres, catering to various age groups. Witnessing the gleam in their eyes as they flipped through the pages was a heartwarming experience. We hope these books will unleash their imagination and provide them with an escape into different worlds.

Providing essentials like clothing and toys is essential to a child's well-being. We ensured that each child received a bundle of clothing, carefully selected to suit their age and preferences. The toys we distributed brought laughter and joy, allowing the children to embrace their playful nature and forget their worries, if only for a moment.

An Extra Mile : Educational materials to support their learning journey Our team went the extra mile by providing educational materials such as stationery, workbooks, and art supplies. These materials aim to ignite their creativity and support their learning journey. By empowering these children with tools to explore their academic interests and hobbies, we hope to inspire them to dream big and believe in their potential.

eduMETA THE i-SCHOOL hope to continue, spreading the joy of giving and being a beacon of support and love to those in need.

eduMETA GREEN DIWALI

Light up your homes, but not at the cost of the environment

Diwali, the festival of lights, is widely celebrated across India and holds great significance for people. This year, eduMETA THE i-SCHOOL decided to celebrate Diwali with a unique twist by emphasizing the importance of environmental conservation. With a motto of "Green Diwali," the school organized a tree plantation drive to promote sustainability and raise awareness about the impact of the festivities on the environment.

Planting the Seeds of Change:

On the auspicious occasion of Diwali, students, teachers, and staff members of eduMETATHE i-SCHOOL gathered together to plant trees in their school premises. The initiative aimed to symbolize the idea of sowing the seeds of change and nurturing the environment for a better future.

Engaging Students and Educating:

The tree plantation drive not only helped instil a sense of responsibility in the students but also acted as a platform to educate them about the significance of a green Diwali. Through informative sessions and interactive activities, the students learned about the harmful effects of firecrackers on air pollution, noise pollution, and the adverse impacts on the health of humans and animals alike.

Additionally, the school organized workshops where students were taught about the various ways in which they could celebrate Diwali while being mindful of the environment. From making eco-friendly diyas (traditional oil lamps) using clay and organic materials instead of non-biodegradable plastic ones, to creating colorful and vibrant rangoli designs made from natural materials, the students were encouraged to celebrate in an eco-friendly manner.

Promoting Sustainability and Responsibility:

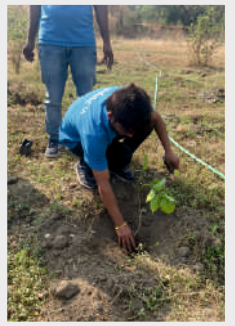

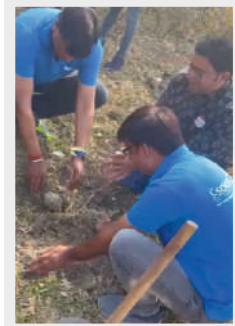

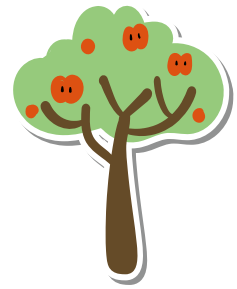

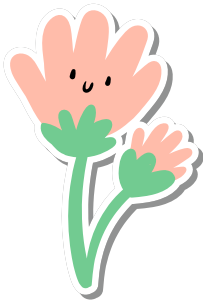

The tree plantation drive not only reflected eduMETATHE i-SCHOOL's commitment to environmental sustainability, but it also highlighted their efforts to raise a generation of responsible citizens. By celebrating Diwali in a green and sustainable way, the school aimed to create a ripple effect on students' families and the larger community, encouraging them to adopt eco-friendly practices during the festive season.

Looking Towards a Brighter Future:

The "Green Diwali" initiative undertaken by eduMETATHE i-SCHOOL was a profound success. The celebration was not just about planting trees, but also about nurturing a sense of responsibility towards the planet and sowing the seeds of eco-consciousness in young minds.

eduMETATHE i-SCHOOL's unique celebration of Diwali through a tree plantation drive and a motto of "Green Diwali" serves as an inspiring example for other educational institutions and the community at large. By associating festivities with environmental conservation, the school has not only raised awareness about the importance of sustainable practices but also empowered students to take conscious actions to protect our planet.

MAGIC SHOW

Celebrating Children's Day with a Magical Touch

This year, we had something truly magical in store for our little ones- a captivating magic show!

On this special day of 14th November 2023 dedicated to our amazing children, we have organized a marvellous magic show that left young minds filled with wonder and joy.

Mesmerizing Performances as magician by our teachers, graced our eduMETA THE i-SCHOOL with their extraordinary talents. From card tricks to illusions, our little ones gained a mesmerizing experience!

Audience Participation: The magic show is not just about watching from the side. Teachers engaged audience who were our parents in their performances, ensuring that everyone feels part of the magic. Some lucky children got the chance to assist him during their tricks! Get ready to be amazed!

Sharing this wonder, parents and guardians were invited to join us on this enchanting day. We believe that magic is something that can be enjoyed by young and old alike.

Additional Fun-filled Activities: In addition to the magic show, we had a range of activities to keep the little ones entertained throughout the day. From face painting to balloon art, there was no shortage of smiles and laughter. eduMIANS also created their own magical crafts, sending them home with a little piece of enchantment.

CHOCOLATE BALL MAKING

Adding sweetness in Festival

We wanted our eduMIANS to experience the joy of creating something beautiful and tasty with their own hands, and what better way to do that than by making yummy chocolate treats?

Excitement -The little ones were beaming with excitement as they gathered around the table adorned with a colorful array of ingredients and utensils. With the guidance of our teachers, they started the process of making the chocolate balls. The aroma of melted chocolate filled the room, making everyone's mouthwater in anticipation.

EduMIANS – Little Chef -The children were encouraged to unleash their creativity as they added various toppings such as sprinkles, chopped nuts, and colorful candies to decorate their chocolate balls. Their eyes sparkled with delight as they carefully crafted their little masterpieces, each uniquely their own. It was heartwarming to witness the teamwork and camaraderie among the children as they enthusiastically helped one another with their creations.

Developing Skills : Not only did the children have a blast making the chocolate balls, but they also learned valuable skills along the way. They improved their fine motor skills by handling the utensils and delicately placing the toppings. The activity also allowed them to practice their counting and measurement skills as they followed the recipe.

As the children wrapped up their chocolate balls in beautifully decorated boxes, their joy was palpable. They couldn't wait to share their tasty creations with their families, spreading the sweetness and happiness of the festival.

At eduMETATHE i-SCHOOL, we believe in creating a holistic learning environment where our little ones can explore their creativity and develop various skills. Through activities like the handmade chocolate balls making, we aim to instil a sense of pride and accomplishment in our students, teaching them the value of teamwork, creativity, and the joy of giving.

ACADEMIC EXCELLENCE MATHS WORKSHOP

Every year, 22 December is observed as National Mathematics Day to mark the birth anniversary of Srinivasa Ramanujan, a renowned Indian mathematician. His contributions to number theory, infinite series, mathematical analysis, etc., are considered instrumental. Mathematics Day is marked to celebrate his works and recognize him as a legend in mathematics. National Mathematics Day is an occasion to remember Ramanujan's great achievements and reflect on the significance of mathematics in our everyday lives.

A workshop was conducted for our little mathematicians aimed to promote learning through projects, making the subject of Maths more engaging and practical for students.

SOME KEY HIGHLIGHTS OF LEARNING WERE :

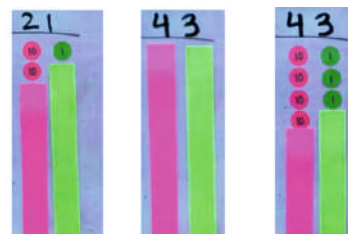

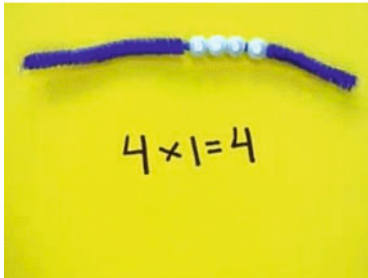

Number counting from 1 to 100 : If your child finds difficult to count the numbers from 1 to 100 then let's make a set of 10 numbers on a separate strip. Keep them in a jumbled form and allow the child to count the numbers and keep the strips in a sequence.

Number decomposition : We need a cardboard or a cupcake tray. Also take a cupcake cups and write any number of single digit on it. Give your child small blocks and allow the child to decompose the numbers in as many as he can or as shown in the picture.

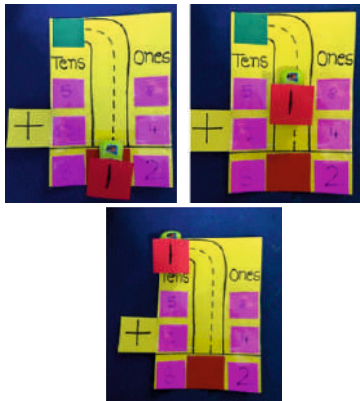

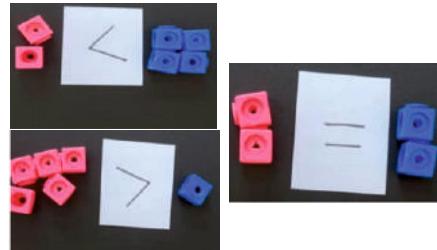

Understanding simple place value: Use two different coloured sticky dots to represent 10's and 1's. Make nine sets of each. Use two thin strips of paper to cover the sticky dots and have your child figure out the place values. You can also write down a number and have your child use the strips of paper to reveal it. You can do this by having

Teaching table : This activity represents moving all the four beads to the right one time and keeps a running total. Slide all of the beads back to the left. Your child should count 5, 6, 7, 8 as they continue to slide the beads to the right and then write the second stanza of table of 4 ie.. $4 \times 2 = 8$. This also represents them to count the four beads twice, thrice, four times and so on to get the answer. Slide the beads back to the left and repeat. Multiplication is repeated addition.

Greater and smaller number : We need to make a chit of greater, smaller and equal to sign. Keep some small blocks in quantity to solve this activity. Make sure that we are explaining in detail about how to recognise the sign of greater number and smaller number. Let us explain the signs of greater and smaller numbers by narrating a story of crocodile mouth.

Borrowing Numbers : On a chart sheet draw a road in the middle, right side write ones and, on the left, write tens. Below stick a different coloured paper and also stick a transparent sheet over it. Now with the temporary marker pen write the numbers in such a way where we can teach them borrowing concept. Say for example:- In the above picture if you see we have written $58 + 24$, now when we add $8 + 4 = 12$ so 2 we will write below and 1 we will write on the car and take it over the tens column which means number 1 is the borrower and will be added with other tens number.

eduMIANS MATHS DAY

CHRISTMAS

Discover Enchanting Celebrations for New Year and Christmas at eduMETA THE i-SCHOOL

eduMETA believe in creating a nurturing and inclusive environment, where children not only learn important skills but also foster a sense of community and celebrate special occasions together. The holiday season is one such time where we go all out to create magical memories for our little ones.

Our New Year and Christmas celebrations 2023 started with the school premises being beautifully decorated with vibrant lights, sparkling ornaments, and festive cheer. The atmosphere was truly magical!

To add to the festivities, our little students and dear teachers dressed up as Santa Claus, spreading smiles and creating a sense of wonder amongst everyone. It was heartwarming to see the joy and excitement on the children's faces as they interacted with their very own Santa Claus.

Throughout the month of December, our curriculum was centered around the holiday theme, incorporating various educational activities designed to engage students in a fun and meaningful way. We organized arts and crafts sessions where children created beautiful Christmas decorations and cards for their loved ones. They also learned about the significance of Christmas traditions and values such as kindness, sharing, and gratitude.

One of the highlights of our celebrations was our special Christmas concert, where our talented little ones showcased their talents through music, dance, and drama performances. The audience was captivated by their enthusiasm and the effort they put into their performances.

We also organized a Secret Santa gift exchange, where each child got to pick a name from a hat and anonymously gift their chosen friend. This activity taught the children the joys of giving and receiving, and the importance of thoughtfulness and empathy.

Furthermore, we organized a visit from Santa Claus himself! The children were overjoyed to meet the jolly old fellow, and each child had the opportunity to sit on Santa's lap and share their wishes and dreams for the upcoming year.

The celebrations wouldn't have been complete without a festive feast. Our little ones enjoyed a special holiday lunch with delicious treats and traditional Christmas snacks. We made sure that our students experienced the magic of the season through every element of their day.

The New Year and Christmas celebrations at eduMETA were filled with love, laughter, and cherished memories. Our aim was to create an enchanting environment where our eduMIANS could experience the spirit of the season and develop a lifelong love for learning and sharing.

E D U M E T A
PRIMARY CLASS
HIGHLIGHTS

eduMETA PRIMARY CLASSES

We are delighted to you on a voyage of academic session of primary classes (I-V). Let's sneak peek into the enlivened, scholarly world of our inquisitive edumians.

Literature

Let's dive into the world of stories!!!

Story Enactment activity

Stage performance is a wonderful way of teaching literature by bringing the text to life. To speak on stage one needs courage and confidence.

An Array of speaking activities has instilled confidence in young edumians, who showcased their brilliant oratory skills by performing a stage activity on the chapter "Who will be the king." Budding Thespians played the character of different vegetables and were looking wonderful in their vibrant and colourful costumes. They learned to portray story through dialogue, expressing emotions by voice modulation and proper articulation!

i-SCHOOL[®]

Care - Commitment - Creativity

An Intelligent School by

C

B

Grammar Building strong Linguistic skills!!!

D

Grasping grammatical concepts is a big part of English language development and something that these young learners will use for the rest of their lives. We at eduMETA introduce children to grammatical features and language in context. With our series of well-crafted activities, we help them to internalise these principles

E

G

Naming words are all Around!

J

F

Students of class-I explored the world of naming words by a game activity. This fun activity not only kept them focussed and engaged but also helps them to make connections to real reading and writing. To reinforce the idea that nouns are name of people, places, animals and things, a pocket chart activity was conducted. Practice of Naming words on a pocket chart encouraged them to speak and observe.

M

I

Exciting Puzzle

H

Class II enjoyed sentence formation syntax with an exciting puzzle activity. This group activity developed their language proficiency in a very enjoyable and interactive way.

Maths
Be a wise Girl or Boy,
give Math a Try

Sundial Clock :

To provide a stress free and effective learning environment, we brought the maths classroom to the school grounds. Students of class I&II learned the origin of timekeeping devices by making a sundial clock.

The curious edumian minds witnessed Earth's movement, observed the position of shadow and marked time on the dial every 30 minute. This activity helped them learn by observation and visualization.

5

7

6

8

Reading a Clock!

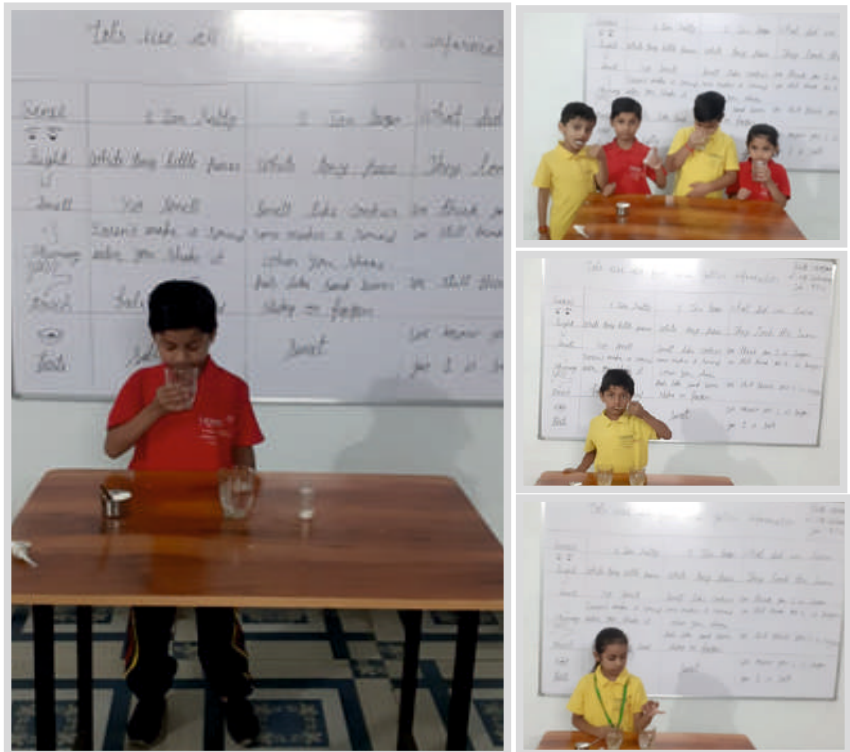

Continuing on the curious journey of time learning, students learned reading time on an Analog clock. The quiz activity of time reading helped the young learners practice it thoroughly.

9

0

**Let's Explore the World through Science!!
Salt & Sugar Experiment**

Allowing kids to experiment and explore through hands-on activities helps them to understand scientific concepts better. Our investigators used their sense organs one by one to solve the case of Salt v/s Sugar. They recorded their study on the board in a chart and logically derived the conclusion. While doing the activity they learned how each sense organ helps them to understand their surroundings.

EXPLORING ACTIVITES

Balance Diet Pyramid :

Preparing a Balance diet Pyramid was another interesting activity. Children sorted food items and made a pyramid presenting which food items should consumed most and which should be consumed least. Students learned importance of healthy food items in our diet.

Let's place the Body Parts :

Using some movement is crucial as it helps activate the students' mental capacities and stimulate neural networks, thus promoting learning and retention.

The sticking internal organs on the body cut-outs helped students learn the position of these organs in our body

CEO COLUMN

Mr. Nayan Sharma
CEO & FOUNDER

Warm greetings to all of you! It brings me immense joy and pride to look back at the incredible growth and achievements of our little ones over the past months. One of the key aspects that sets eduMETA THE i-SCHOOL apart is our commitment to providing a holistic educational experience.

We believe in fostering a love for learning through a balanced curriculum that encompasses academics, social-emotional development, physical activities, and creative expression. As parents, you have entrusted us with the precious

task of nurturing and shaping your child's early years. I want to assure you that we take this responsibility to heart. In closing, I would like to extend my deepest gratitude to all of you for choosing eduMETA as a partner in your child's education. It is a privilege to be a part of their early years, witnessing their growth and development every step of the way.

Warm Regards,
Mr. Nayan Sharma
CEO & FOUNDER
